WHEN IT COMES TO REPAIRING A SETTLING FOUNDATION, DON'T SETTLE FOR LESS

Following installation of the Grip-Tite® Helical Pier System, you can expect to reduce cracks in mortar joints, windows and doors to open and close easier and securely and your foundation to support your home as it was originally designed to. The system can be installed year-round in just a few days—even in limited access areas.

If you suspect your foundation needs repair, contact your certified Grip-Tite dealer today for a free inspection, professional evaluation and estimate.

For more than 80 years, Grip-Tite Manufacturing Company has been the world's leading authority in earth anchoring technology. If you have a settling foundation, you can count on Grip-Tite for the highest-quality products and proven, engineering methods to provide a cost-effective solution. Our Helical Pier System has proven to be a reliable, predictable solution to foundation problems and is installed only by trained, certified technicians.

DON'T OVERLOOK THE SIGNS

Many people are unsure whether their foundation needs repair. The following are some signs you should look for:

- Windows and doors that stick or are hard to open
- Gaps in window and door frames
- Interior plaster walls cracking
- Nail pops in ceilings and walls
- Leaning walls
- Uneven floors
- Tilting chimney
- Sinking foundation
- Cracks in foundation or basement walls

PUT YOUR HOME OR COMMERCIAL BUILDING ON SOLID GROUND WITH GRIP-TITE® HELICAL PIER SYSTEM

More and more homes and commercial buildings are being built on unstable soil. In fact, each year thousands of home and business owners are faced with costly repairs due to foundation problems. Grip-Tite Helical Piers are driven deep to stable, load-bearing soil by hydraulic torque motors and transfer the weight of your home from the unstable ground to the stable, load bearing soil through high-strength steel shafts, load-bearing helical plates and professionally engineered brackets. More efficient and cost-effective than over-sized concrete footings, Grip-Tite® Helical Piers provide a secure, reliable solution to your foundation problems.

To learn more, contact your trained and certified Grip-Tite dealer today.

All Grip-Tite Dealers are independent contractors thoroughly trained and certified in the application of the Grip-Tite® Helical Pier System and are supported by over 80 years of Grip-Tite Manufacturing Company's earth anchoring experience.
